

SINCE 1950

SERVING INDUSTRIES AROUND THE WORLD SINCE 1950

HAM-LET CONNECTORS

FOUNDED IN 1950, the HAM-LET Group specializes in the design, development, production, and marketing of high quality instrumentation valves and fittings in a wide variety of materials for high pressure, temperature and vacuum applications. An accent on quality combined with ongoing research and development has given the company an international reputation for excellence. As a result, the HAM-LET Group today is the fastest growing company in this industry. Despite this growth, customers still receive personal attention, with best quality products and good delivery schedules. Our products are used around the world in a wide range of industries, including Oil & Gas, Petrochemical, CNG, Semiconductor, Energy, Food, Biotechnology, Pharmaceutical, Defense, Pulp and Paper and Mining.

LET-LOK
COMPRESSION TUBE FITTINGS
1/16" THROUGH 2" 2 MM THROUGH 50 MM-METRIC

ONE-LOK
SINGLE FERRULE FITTINGS
1/16" THROUGH 1"

OUR QUALITY is an integral part of the development, engineering, production and planning process at the HAM-LET Group. It is built into the project starting from raw materials inspection, through ongoing quality assurance during production using Statistical Process Control (SPC) and Total Quality Management (TQM), and finally through testing of the final product before delivery. HAM-LET Group quality levels meet the highest standards including: ISO 9001, Lloyds, DNV, S.A.E. Standards, Military Specification MIL-F-18866, ASME Standards, ASTM Standards and CE (Europe P.E.D.) standards for safety accessories.
